

Sustainable solutions for unique composites manufacturing

We change **tooling disposable manufacturing** promoting a **circular process** towards **cost saving**

No investment
Tooling-as-a-service
40% cost reduction

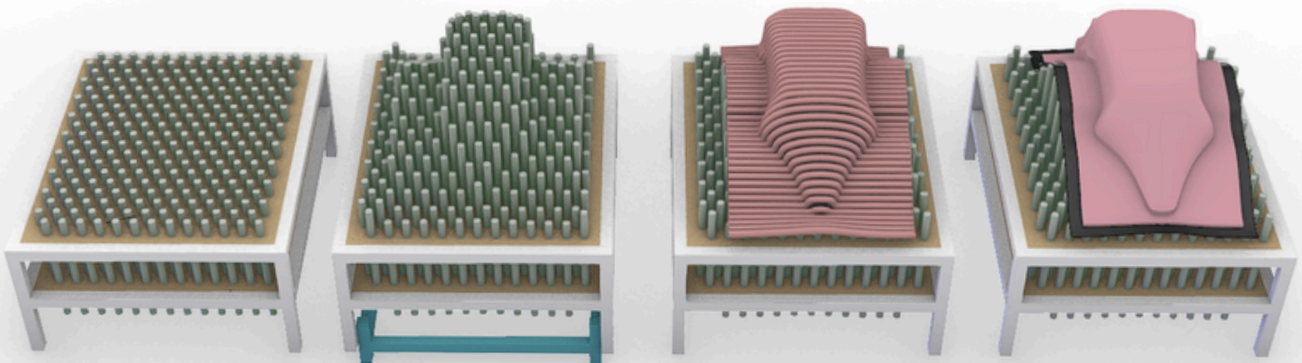

No storage
Once you finish,
we take it back

Sustainability
-80% materials,
reusable technology

High Quality
Low CTE, isotropic,
no glue-lines

1.

Modular
system

2.

Automatic
configuration

3.

3D printing

4.

Machining
